Keys Cut to Code - Order Form

Key codes can be found in a variety of places such as on the original keys but most commonly on the face of the lock cylinder itself. If you have office furniture such as a drawer unit or cupboard that you need keys for you can use our keys to code matching guide to assist you in identifying your key brand and code series. ***See note below***

Contact Name: _____

Contact Number: _____

Key Code	***Lock Brand If known**** ***See note below***	***Quantity Required***	***Key Code***	***Lock Brand If known**** ***See note below***	***Quantity Required***

*Please note that we can not guarantee that keys will work unless the correct information is provided as some key code series are used by multiple lock brands. We can come out to site and gather the information for you. On-Road service fees apply.
